Zummer of Fun

NELSON HOUSE, Manitoba – August 27, 2004 – The first Zummer Adventure Camp in Nelson House was a great opportunity for the community to get involved and get active throughout the summer.

More than 120 people took part in the fun and activities, including 116 children and youth, ages 3 to 20, and 10 adults, who participated in the cooking and computer camps.

The most popular programs were the weeklong canoe adventure trips for youth, taekwondo and cooking.

There were also a number of other programs to take part in, including fun and games, dance, basketball, arts and crafts, music, baseball, volleyball, drama and lacrosse.

Program organizer, the Family and Community Wellness Centre, is now working on the development of a winter activity program and will announce details within the next few months.
