NATURAL GAS SERVICE PERSON TRAINING PROGRAM WINNIPEG, BRANDON, DAUPHIN, MORDEN, AND PORTAGE LA PRAIRIE

Manitoba Hydro is consistently recognized as one of Manitoba's Top Employers!

Great Benefits

- Competitive salary and benefits package.
- Defined-benefit pension plan.
- Nine-day work cycle which normally results in every other Monday off, providing for a balanced approach to work, family life and community.

Manitoba Hydro is a leader among energy companies in North America, recognized for providing highly reliable service and exceptional customer satisfaction. Join our team of Manitoba's best as we continue to build a company that supports innovation, commitment, and customer service, while actively supporting a diverse, equitable and inclusive workplace.

We are seeking qualified individuals to train for a career as a Natural Gas Service Person.

This 4-year, fully paid apprenticeship program includes on-the-job training and 12 weeks of competency-based classroom training that prepares you for a career as a Natural Gas Service Person. Natural Gas Service Persons monitor and maintain natural gas distribution systems, repair natural gas lines, and respond to natural gas and carbon monoxide emergencies. These emergencies can include damaged gas lines, fires, gas odor investigations, and carbon monoxide investigations. Natural Gas Service Persons also service and inspect natural gas appliances.

As a Natural Gas Service Person Trainee, you will:

- Conduct odorant tests, cathodic reads, and regulator station inspections.
- Repair and make alterations to the natural gas distribution system, including above- and below-grade piping and equipment.
- Replace natural gas meters and regulators and repair or install service lines.
- Locate company underground natural gas and electrical lines.
- Respond to natural gas related emergencies such as damaged gas lines, gas odor calls, fire calls, and carbon monoxide calls.
- Inspect all new and replacement gas appliances.
- Repair and adjust furnaces, boilers, water heaters, and residential cooking appliances.

As part of your training, you will be required to obtain a Utility D Gas Fitter's Licence by successfully completing the Inspection and Technical Services Manitoba Utility D Gas Fitter's exam. Natural Gas Service Persons need to continuously upgrade their skills and knowledge to keep pace with the ongoing development of new technology in the natural gas industry.

Qualifications:

- High school graduate with a minimum of the following specific credits: Mathematics 40S (Applied or Pre Calculus), Physics 30S, and English 40.
OR
- High school graduate with a Class "A" or "B" Gasfitter's Licence issued by the Province of Manitoba certifying qualifications (or equivalent provincial certification). Other relevant trades designations may be considered.
- Possess a valid Class 5 Manitoba Driver's Licence (intermediate or full).
- For Winnipeg positions, reside within the Winnipeg headquarters zone or within 20 minutes of driving distance from your assembly point. The Winnipeg headquarters zone is defined as the City of Winnipeg and 5 kms outside of the perimeter.
OR
- For rural positions, the successful applicant will reside within the applicable Customer Service Centre geographical boundary and within a 50 kilometre travelling distance from their assembly point during periods of standby. (NOTE: In the event that this requirement causes the employee to incur incremental costs during periods of standby, such costs will be the employee's responsibility. A Corporate vehicle will be provided for authorized personal commuting during periods of standby).
- Meet the challenges of physically demanding work in all types of weather.

- Capable of working at heights on ladders, scaffolding, catwalks, rooftops, and mechanical lifts.
- Be prepared to work with natural gas and mechanical and electrical systems while adhering to established safety procedures.
- Be prepared to work in confined spaces with hazardous products while conforming to established safety procedures.
- Be prepared to work various shifts, which may include days, evenings, weekends, nights, and/or statutory holidays once you are fully qualified to do so (for Winnipeg positions).
- Be prepared to interact with customers as required.
- A certificate in a registered trade (e.g., Plumber) would be an asset.

All applications must include the following information attached to your online profile:

- A resume and cover letter.
- High school and any post-secondary school transcripts or training certificates.

The selection process includes aptitude testing, a panel interview, and a one-day Manitoba Hydro sponsored Skills Assessment and Trades Orientation program. Candidates selected for an interview must provide a current driver's abstract at the time of their interview.

The email address you submit in your application profile will be used as the main form of correspondence throughout the recruitment process. Please monitor your email inbox on a regular basis.

Salary Range

Service Person Trainee: \$23.48-\$36.09 Hourly, \$44,995.34-\$69,160.26 Annually.
